

## **LOOKING FOR AN INTERN?**

Seneca College is looking to place some interns in sports organizations for their internship. Do you have an opportunity for one (or even two)?

Our internship programme is for third year students who will graduate in May 2011. It runs from the beginning of November to mid April.

These students are members of the School of Marketing and e-Business, and have studied marketing for three years. This has included specialist courses in computer application, accounting, business management, as well as advertising, public relations, media applications, promotions, research, sponsorship, graphic and web design, and particularly sports event management.

The objective of their internship is to experience the employment environment, both learning and, more importantly, contributing to the work of your organization.

If you have an internship opportunity and would like to discuss our search for internship employment in sport, please contact:

**Glynne Jenkins**

**Manager of the Internship Programme**

**Tel: 416-324-8444**

**Email: [gjenkins@rogers.com](mailto:gjenkins@rogers.com)**

Students will be available for interviews at any time at your convenience.

Glynne Jenkins
