Re: myBackCheck.com Information Session Invitation

Do you need a simplified way to manage criminal history checks for your volunteers?

Stephen Dinesen, VP BackCheck, will be at 3 Concorde Gate, next week to make a presentation to those interested in simplifying your organization's screening practices for staff and volunteers.

Join us for an information session on Thursday February 19, 10:00 am or 1:00 pm at 3 Concorde Gate. Light refreshments served.

*What is [myBackCheck.com](#)?*

myBackCheck.com was founded in partnership with SPORT4ONTARIO, [Coaches Association of Ontario](#) and [BackCheck](#), and developed over the past 2 years in response to your concerns expressed about the administrative burden of effectively managing police record checks for hundreds of thousands of volunteers as well as the burden on volunteers to repeatedly obtain their clearance time after time for each organization.

This revolutionary platform eliminates the inconsistency of price and scope of criminal history checks throughout the province. Everyone pays the same price and everyone receives the same check (Criminal History and Vulnerable Sector Check).

*myBackCheck.com benefits to organizations:*

MyBackCheck.com provides the much-needed infrastructure for you to order manage Criminal History Checks with online Identity Verification for volunteers, members and employees. There is no sign-up cost for organizations. Simply send an email request to those individuals who require screening. Their ID is verified online using a bank-caliber tool, and forgery-proof results are delivered online to the right person in your organization within one (1) business day.

*myBackCheck.com benefits to individuals:*

Individuals are not required to physically visit a police detachment - in less than 5 minutes, individuals can create a mybackcheck.com account, complete on line identity verification and request their criminal history check from the comfort of their own home. Best of all is that you can share your results again and again with other organizations set-up to view the results.
